Borders College Schools Academy Awards 2018/19

Jodie (S4) is the winner of the Employability Award for students who have attended Borders College Schools Academy courses this session. More than 500 students across the Scottish Borders have taken part in the programme this year and Jodie, who has been studying Early Education & Childcare, was chosen ahead of everybody else for this award. She is pictured here with Head Teacher Mr Sinclair and Colin Henderson from the award sponsors Skills Development Scotland. A massive well done to all of our course winners at the Borders College Schools Academy awards ceremony on 26th March. This is the most number of winners EHS have ever had at this event, so we are really proud of their achievements and this level of recognition.
