1 November 2016

Dear S1 Parent/Carer,

S1 Career Sector Mornings

Following on from the STEM (Science, Technology, Engineering and Maths) day in September, next week sees the second in our series of career-focussed days for S1.

This is our MEDIA day which will take place on **Tuesday 8th November 2016**.

As before, the aims for this day are:

- ✓ For students to appreciate that there is a diverse range of career opportunities available to them
- ✓ To be aware of what the growth sectors in industry are
- ✓ To inspire and motivate them for the years ahead at school
- ✓ To appreciate that there are different routes into employment and all are equally valid
- ✓ For students to understand how they can best utilise their individual skills, interests and qualities in the world of work

For the day on the 8th, please bear in mind the following:

- ✓ All S1 should register with their period 1 teacher
- ✓ They will then go to the Assembly Hall where there will be an introduction and timetables for the rest of the morning will be given out.
- ✓ There is no need to have the usual equipment for Tuesday morning classes. However, a pen/pencil will be required for the morning and classes will run as usual in the afternoon.
- ✓ Lunch and interval will run as normal.

S1 students have already been informed of these above points but it would be appreciated if they can be reminded of the key messages.

Thanks in anticipation of you discussing this at home prior to and after the event.

David Ferguson
