

Earlston High School Learning for Sustainability Policy

“Learning for Sustainability is **learning to live within the environmental limits of our planet** and to build a **just, equitable** and **peaceful** society. It is essential for the well-being of all and is an international priority”.

(UNESCO, 2013)

COMMITMENT
RESPONSIBILITY
RESPECT

At Earlston High School we are **committed** to learning for sustainability.

For our school it is 'a whole school approach that enables our young people and the wider community to build the values, attitudes, knowledge, skills and confidence needed to develop practices and take decisions which are compatible with a sustainable and equitable world.' (Learning for Sustainability, The report of the One Planet Schools Group, 2012).

Learning for sustainability embedded within the life of the school and exemplified through our Values in Action Programme. Our pupils will have experiences and opportunities to:

1. Become global citizens
2. Embrace sustainable development
3. Have access to outdoor learning
4. Have their rights as children respected.
